VLT[®] Safety Option MCB152, coated

Safety modules enable machines to interact intelligently with operators to increase safety, reduce system costs, improve flexibility and increase productivity. VLT® Safety Option MCB152 provides an intelligent, user-friendly solution to meet the IEC 61800-5-2 functional safety standard and helps to reduce cabling. MCB152 enables activation of the Safe Torque Off (STO) irrespective of where a hazard occurs. The new safety module is certified according to ISO 13849-1 PL d Category 3 and SIL 2 according to EN IEC 61508. The combination of VLT® Safety Option MCB152, PROFINET fieldbus option MCA120, and the control card of the VLT® AutomationDrive constitutes a PROFIsafe device.

VLT° EtherCAT MCA 124, coated MCA 124 Ethercat option painted The VLT° EtherCat MCA 124 option enables Connection to EtherCat-based networks via the EtherCat protocol. The option allows an EtherCat connection with full Speed and a connection to the frequency converter with a time interval of 4 ms in both Directions. This enables the MCA124 to be used in Networks from low-power applications to Servo applications. -EoE EtherNet over EtherCat support -HTTP (Hypertext Transfer Protocol) for diagnosis via integrated web server -SMTP (Single Mail Transfer Protocol) for email notification -TCP / IP for easy access to frequency converters Configuration data via MCT 10

Accessories

130B1235 🖻

VLT® PROFINET MCA 120, coated

- MCA 120 PROFINET interface
- With reinforced coating (class 3C3 / IEC 60721-3-3)
- -Supports operation on PROFINET network with extensive
- characteristics
- -DCP support for easy setting u. Communication parameters via the PLC
- -on Board web-Page with Drive Status
- -parameterization with the MCT10 software
- 2-port version, reduced external hardware

130B1234 🛛

VLT® Motion Control MCO 305, coated

Integrated and programmable motion controller for VLT * AutomationDrive FC 301 and FC 302

- Adds additional functionality and flexibility as it is a freely programmable module
- Optimized for all types of positioning and synchronization applications
- Make your own program specially adapted to your application
- Contains:
- synchronization (electronic shaft), positioning and electronic cam control
- 2 inputs support both stepwise and absolute encoders
- 1 encoder output (virtual master function)
- 10 digital inputs
- 8 digital outputs
- Sends and receives data via fieldbus interface (requires fieldbus option)
- PC software for programming and commissioning
- Remember to order the Mounting kit if the above MCO option is required
- retrofitted.
- 130B7530 Mounting kit for enclosures A2 and A3
- 130B7531 Mounting kit for MCO Option,
- together with MCB 113, in enclosures A2 and A3
- 130B1413 Mounting kit for enclosure B3
- 130B1414 Mounting kit for MCO Option,
- together with MCB 113, in enclosure B3
- 130B7532 Mounting kit for enclosure A5
- 130B7533 Mounting kit for all enclosures B, C, D, E and F (B3
- excepted)
- Danfoss MCO options are not sold without prior advice.
- Danfoss can offer help with programming / setting up MCO options.
- Contact Danfoss for advice and prices.
- Product group: R

VLT® PROFIBUS Converter MCA 113, ctd

Ensures easy and quick replacement of VLT® 3000 to VLT® AutomationDrive

VLT[®] 3000 can then be replaced by VLT[®] AutomationDrive or - the system Can be expanded without costly changes to the PLC program - Flexible investment as it is easy to remove and replace option when upgrading to another fieldbus Product group: R1

For more information, please use this link to visit the product page on Danfoss Product Store 🗅

130B1227 🕑

VLT® Resolver Input MCB 103, coated Resolver extension for FC 300. Enables the connection of the following Resolver types: Input voltage: 4..8 Vrms Input frequency: 2.5..15 kHz Number of resolver poles: 2 or 4

130B1220 🛛

VLT® Safe PLC I/O MCB 108, coated

Increases security and helps you meet requirement security levels - VLT* AutomationDrive FC 302 has a safety input based on a single pole 24 V DC input - Security in a cost-effective way Possibility of connection to two conductor safety system Possibility to interrupt on the plus or minus side without disturbing the sensor signal

130B1219 🛛

VLT® EtherNet IP MCA 121, coated

EtherNet/IP extends commercial off-the-shelf Ethernet to the Common Industrial Protocol (CIP[™]) – the same upper-layer protocol and object model found in DeviceNet. Built-in high-performance switch enabling line-topology, and eliminating the need for external switches. Device Level Ring (DLR) topology for higher system availability. Based on CIP[™], makes the reuse of PLC program possible when migrating from DeviceNet to EtherNet/IP. Built-in web server provides remote diagnosis and reading out of basic drive parameters. E-mail notification provides fast access to warnings or alarm information. Unicast and Multicast communication for improved network utilization. Certified by ODVA for fulfilment of the newest standard.

130B1264 🕑

VLT® Extended Relay Card MCB 113, ctd

Adds 7 digital inputs and 2 analog outputs for increased flexibility. 4 SPDT relays. Meets NAMUR recommendations. Galvanic isolation capability.

For more information, please use this link to visit the product page on Danfoss Product Store 🗷

130B1253 🗠 VLT® Position Controller MCO 351, ctd Extends the functional characteristics of the frequency converter in positioning applications - Direct positioning via fieldbus, relative positioning, absolute positioning and touch probe positioning - End stop handling (software and hardware) - Mechanical brake handling (programmable hold delay) Error handling - Jog speed / manual operation - None for programming, as it is pre-programmed Remember to order the Mounting kit if the above MCO option is required retrofitted. 130B7530 - Mounting kit for enclosures A2 and A3 130B7531 - Mounting kit for MCO Option, together with MCB 113, in enclosures A2 and A3 130B1413 - Mounting kit for enclosure B3 130B1414 - Mounting kit for MCO Option, together with MCB 113, in enclosure B3 130B7532 - Mounting kit for enclosure A5 130B7533 - Mounting kit for all enclosures B, C, D, E and F (B3 excepted) Danfoss MCO options are not sold without prior advice. Danfoss can offer help with programming / setting up MCO options. Contact Danfoss for advice and prices. Product group: R

130B1252 🛛

VLT[®] Synchronizing Ctrl. MCO 350, ctd

MCO 350 - synchronous controller

Based on the MCO 305 prefabricated controller for Synchronization tasks. The adjustment takes place through parameter settings. Specific Programming skills are not required.

- 2 encoder inputs, both for incremental as well as absolute encoder
- 1 encoder output (virtual master function)
- 10 additional digital inputs
- 8 additional digital outputs
- fieldbus Communication (requires fieldbus card) with reinforced coating

130B1246 🕑

VLT® PROFIBUS Converter MCA 114, ctd

A special version of the PROFIBUS options that emulates VLT[®] 5000 commands in the VLT[®] AutomationDrive. The VLT[®] 5000 can be replaced by the VLT[®] AutomationDrive, or an existing system can be expanded without costly change of the PLC program. For upgrade to a different fieldbus, the installed converter is easily removed and replaced with a new option. This secures the investment without losing flexibility. The option supports DPV1.

For more information, please use this link to visit the product page on Danfoss Product Store 🗅

130B1196 🛛

VLT[®] Modbus TCP MCA 122

MCA 122 Modbus TCP interface Complex compatibility tests make the

- perfect operation in Modbus TCP systems for sure.
- On Board web-Page with Drive Status
- Parameterization with MCT10 software
- 2 port version reduces effort for external hardware (switch, cables, etc.) and
- allows flexible bus topologies

130B1172 🕑

VLT® Sensor Input Card MCB 114, unctd

Protects the motor from being overheated by monitoring the temperature of bearings and windings in the motor. Three self-detecting sensor inputs for 2 or 3 wire PT100/PT1000 sensors. One additional analog input 4–20 mA.

130B1170 🛛

LCP Panel Mounting Kit The kit includes fasteners and gasket. No LCP and no cable included.

130B1212 🛛

VLT® General Purpose I/O MCB 101, ctd

MCB 101 - Advanced I / O option Expands the number of freely programmable

Control inputs and outputs around the following I / Os:

- 3 digital inputs opto-decoupled 0 24 V.
- 2 analog inputs 0 10 V.
- 2 digital outputs NPN / PNP switchable 24 V
- 1 analog output 0/4 20 mA
- with reinforced coating

130B1210 2

VLT® Relay Option MCB 105, coated

Relay extension for FC 100 and FC 300. Extension with 3 additional load relays (changeover contacts), easy to retrofit thanks to modular technology. Painted version for harsh environments, easy to retrofit thanks to modular technology. Max. Load 240V AC (resistive): 2 A Max. Load 240V AC (Cos Phi 0.4): 0.2 A Max. Load 24V DC (ohmic): 1 A Max. Load 24V DC (inductive): 0.1 A

VLT® Sensor Input Card MCB 114, coated

MCB 114 - PT100 / PT1000 option

- For FC100-FC200 and FC302 (painted version)
- Enables the evaluation of up to 3 PT 100 or 3 PT 1000 sensors
- Connection of 2 and 3 wire sensors
- Automatic detection of the sensor type
- Additional 4-20mA input

130B1296 🕑

VLT[®] Modbus TCP MCA 122, coated

The first industrial Ethernet-based protocol for automation. Connects to Modbus-TCP-based networks. Able to handle connection interval down to 5 ms in both directions, positioning it among the fastest performing Modbus TCP devices in the market. For master redundancy it features hot swapping between two masters.

130B1164 🕑

VLT® Extended Relay Card MCB 113

LCP 103 Wireless Communication Panel

With VLT® Wireless Communication Panel LCP 103 you can communicate with MyDrive® Connect - an app that can be downloaded for iOS and Android based smartphones. MyDrive® Connect makes commissioning easy, monitor and maintain tasks on your frequency converter. VLT® Wireless Communication Panel LCP 103 shows the current status of the drive (On, Warning, Alarm, Wifi connection) via built-in LED. Detailed information is also available using MyDrive® Connect. Here do you have access to i.a. status, menu and alerts. You can also see graphs over the latest available data. The new VLT® Wireless Communication Panel LCP 103 allows you to wireless communication to the following drives: - VLT® HVAC Drive FC 102 - VLT® Refrigeration Drive FC 103 - VLT® AQUA Drive FC 202 - VLT® AutomationDrive FC 302 [!] Note! LCP 103 only works on frequency converters produced in 2018 (White USB stik).

DrivePro SU + special applications D & E

DrivePro® Start-up gives the Customer a full range of checks and adjustments during commissioning of the drive, ensuring their system is

- tuned for optimal performance right from day one.
- The following benefits can be gained:

• Installation is checked to ensure it complies to Danfoss guide lines

• The AC drive is fine-tuned specific to the application, ensuring

- optimal performance.
- Maximum energy savings to the Customer.
- Extend the AC drive's lifespan.
- Report detailing findings.

Before DrivePro® Start-up can be implemented, the AC drive must be installed and

ready for operation. The entire system must be fully operational under normal operation conditions. Installation of the drive is not included in this package. Commissioning needs to take place during the standard working hours.

Image coming	DrivePro Start-Up ½ day on-demand medi
soon	DrivePro [®] Start-up gives the Customer a full range of checks and
	adjustments during commissioning of the drive, ensuring their system is
	tuned for optimal performance right from day one.
	The following benefits can be gained:
	<ul> <li>Installation is checked to ensure it complies to Danfoss guide</li> </ul>
	lines.
	The AC drive is fine-tuned specific to the application, ensuring
	optimal performance.
	Maximum energy savings to the Customer.
	Extend the AC drive's lifespan.
	Report detailing findings.
	Before DrivePro [®] Start-up can be implemented, the AC drive must be
	installed and
	ready for operation. The entire system must be fully operational under
	normal operation conditions. Installation of the drive is not included
	in this package. Commissioning needs to take place during the standard working hours.
	General Terms and Conditions of Delivery and Warranty apply.
