Company Introduction

Qlight Gives You a Brighter Future!

Qlight has been a world-leading provider of visual and audible status indicating systems and solutions for the last three decades. We pride ourselves in developing products which help our customer's improve productivity, safety, and quality control in the industrial automation and commercial industries. Our strong dedication to innovative products, quality assurance, well-established supply chain, customizable manufacturing and strong customer relationships have helped us earn the top market share in Korea and China. These core values have also been fundamental to our continued growth into new markets. Qlight's products are certified by the International Quality Management System (ISO14001), IECEX, ATEX, UL, NEPSI, CE, Lloyd, KIMM, and KOSHA which display our dedication to strin-

gent quality control and product development based on safety-pursuing industry standards.

Our assembly lines in Busan, South Korea and Shanghai, China presently provide a variety of more than 450 of products to more than 40 countries, based on sales offices in South Korea (Seoul, Busan) China (Shanghai, Shenzhen, Shenyang, Tianzhen, Tianjin, Wenzhou), and the U.S. (Silicon Valley). The Qlight brand reflects 30 years of research and development, certification, and manufacturing experience.

We will continue to establish ourselves as an industry-leading provider by pushing the boundaries of technology in order to enhance our customer's efficiency and safety in every industry and region of the world.

Product specifications	10

Technical Data of Heavy-Duty Products

Vibration and Shock of Heavy-Duty Products

Heavy-duty products must be tested by strict standards to withstand heavy vibration and shock environments.

Vibration Standard

- Test is conducted in 3 directions X, Y, Z, at 15g acceleration, frequency band 10Hz-200Hz (1.0 octave/ min), and 10mm maximum amplitude for four hours in Z direction and two hours in the X, Y direction. The test should be conducted for a total 8 hours. There should be no cracks on the exterior of the product or breakage, separation of components after the test, and should operate normally for two hours at its rated voltage.

Shock Standard

- Test is conducted in 3 directions X, Y, Z, at 100g impact acceleration for a 11ms duration. There should be no cracks on the exterior of the product or breakage, separation of components after the test, and should operate normally for two hours at its rated voltage.

Material Characteristics

Vessels and heavy-duty products require vibration, shock and corrosion resistant materials

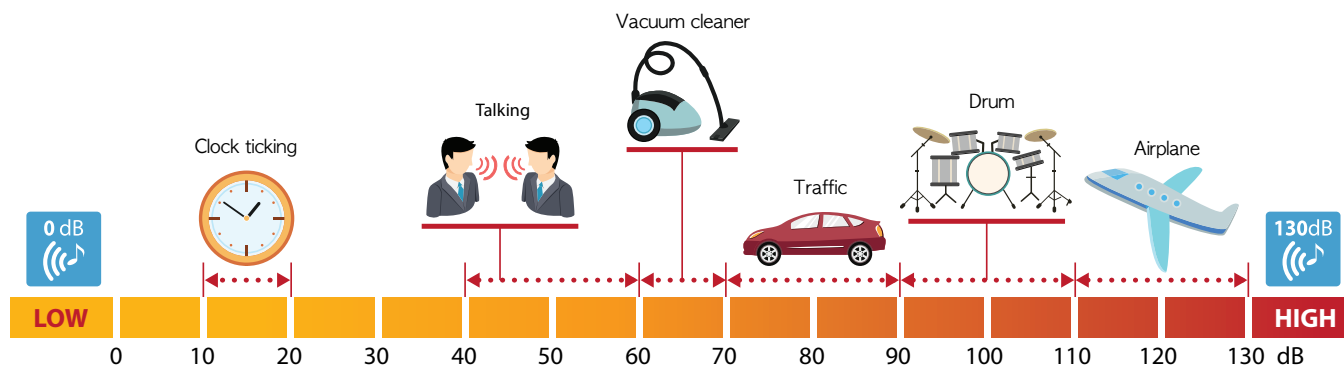

The characteristics of the materials that are mainly used in Qlight products

Material	Abbreviation	Characteristics
ABS resin	ABS	Has opaque gloss on the surface and has excellent shock resistance mainly used on exterior parts use of electrical and electronic components
Polycarbonate	PC	Has a high-strength and high-tensile chemical structure, with great electrical insulation and transparency, Mainly used on components that need impact resistance For example, transparent covers for car parts that requires transparency, and small electrical and electronic components, etc.
Acrylic	PMMA	Has a light transmittance over 90% with a high transparency, and has excellent chemical resistance to the external environment Mainly used for lens covers of interior lighting, and used for the replacement of glass in automobiles, aircraft, and ships
Aluminum	Al	Lightweight and durable, widely used throughout industry for its oxidation resistance Low density, low cost, and corrosion resistance- widely used in aerospace, transportation, architecture, cryogenic, and harsh environments
Bronze	BRASS	Bronze is an alloy of copper and tin. It has greater castability and abrasion resistance Mainly used in arts and crafts, valves, ship plates, statues, springs that require elasticity, parts of machinery, bearing materials, electrical, semiconductor materials
steel use stainless	SUS	The price is expensive compared to ordinary steel but has better corrosion resistance and there is no need for additional surface treatment Mainly used as external parts
Silicon rubber	Q(silicon)	For its cold resistance, heat-resistant, oil resistant, non-toxic, chemical resistance. It is mainly used in defense and aerospace industries, automotive, food containers, etc.
Nitrile rubber	NBR	Excellent resistance to high temperature and lubricant used mainly in oil sealing, gaskets, and oil hoses

Examples of Everyday Noise

In order to transmit sound effectively in noisy environments, products require a sound signaling device with a high volume. The volume of the signaling devices compared with the noise of everyday life is shown below.

QA70HLS/ QA100HLS

LED Strobe Warning Lights for Heavy-Duty Equipment

QA70HLS-Ø70mm
QA100HLS-Ø100mm

QA70HLS

QA100HLS

Common Specifications(QA70HLS/ QA100HLS)

- Uses Qlight's original high brightness LED diffusion system that allows for operation outdoors in intense sunlight conditions
- Excellent vibration and shock resistant structure for superior durability
- Fully enclosed structure that can withstand storm and severe dust environments (IP66)
- Materials : Lens-PC, Housing-ABS+GF(for QA70HLS)/ ABS(for QA100HLS)
- Ambient operating temperature : -30°C to +50°C
- Protection rating : IP66
- Vibration resistant and shock-proof : can withstand 15g of vibration and 100g of shock

QA70HLS LED Strobe Warning Light

- Mountable with two bolts on the main structure of the warning light for convenient assembly
- Suitable for small agricultural machines
- Flashing rate : 45-55 flashes/min

Model number	Voltage	Current	Certificates	Weight	Color
QA70HLS	DC12V-24V	Max. 0.650A	-	0.23kg	<ul style="list-style-type: none"> • R-Red • A-Amber

※ DC type model has a free-voltage range of 10V-30V.

QA100HLS LED Strobe Warning Light

- Flashing rate : 60-80 flashes/min

Model number	Voltage	Current	Certificates	Weight	Color
QA100HLS	DC12V-24V	Max 1.200A	CE	0.39kg	<ul style="list-style-type: none"> • R-Red • A-Amber

※ DC type model has a free-voltage range of 10V-30V.

Technical Diagram

(Units : mm)

Wiring Instructions

- QA70HLS Model : External power line standard UL1015 AWG18(0.75sq)×2C 400mm
- QA100HLS Model : External power line standard KSC3304 (0.85sq)×2C 400mm
- Both models can be wired regardless of polarity

QA115HLS series

LED Strobe Warning Lights for Heavy-Duty Equipment

QA115HLS-Ø115mm
QA115HLSP-Ø115mm

Adopted Qlight's new developed light diffusion system.

QA115HLS

QA115HLSP

Common Specifications(QA115HLS/ QA125HLS)

LED Strobe warning lights for heavy-duty equipment applications, featuring superior luminous efficiency with Qlight's exclusive light diffusion system

- Ability to compensate for signal attenuation phenomenon that occurs during daytime operation with a powerful xenon lamp.
- Can select between pole mount and direct mount type to fit your application needs
- Materials : Lens-PC, Housing-PC
- Ambient operation temperature : -30°C to +50°C
- Protection rating : IP66
- Vibration resistant and shock-proof : Can withstand 15g of vibration and 100g of shock

QA115HLS/ QA115HLSP LED Strobe Warning Lights

- Pole mount type model consists of a shock-proof rubber body; this feature provides excellent durability to vibration and shock
- Flashing rate : 45-55 flashes/min

Model number	Voltage	Current	Certificates	Weight	Color

- Ø140mm high-intensity LED strobe warning lights for heavy-duty equipment
- Qlight's diffusion lens and reflector system developed to maximize its light output.

Common Specifications(QA140HLSP/ QA140DLSP)

- Applies a special built-in filter to compensate for shortcomings of the LED warning light when attenuation to sunlight in bright outdoor environments occur
- Wide angle filter provides excellent visibility from top to bottom
- Vibration resistant and shock-proof : Can withstand 15g of vibration and 100g of shock
- Pole mount type
- Equipped with angel-adjustable bracket
- Flashing rate : 60-80 flashes/min
- Materials : Housing-PC, Diffusion lens-PC, Lens-PC, Reflector-Heat resistant ABS, Bracket-SUS
- Ambient operating temperature : -30°C to +50°C
- Protection rating : IP66
- Designed for heavy equipment applications
- Certificates : CE Compliant, E11
- Compliant with RoHS directive

QA140HLSP

Superior light output through the Qlight's exclusive diffusion lens and reflector

The inner ring-shaped diffusion lens is specially designed to help minimize the loss of light output. The inner diffusion lens and reflector structure allows for light to be spread both horizontally and vertically for accurate signal light transmission.

Standard Model

High Brightness Model

Ensuring visibility with wide angle light output

To compliment the drawbacks of a typical one directional LED, The light emitting structure is designed to secure a wide viewing angle. Thus, eliminating potential disadvantages of mounting a typical LED at a higher position. It's design allows for easy visibility at close ranges and high mounting positions.

QA140HLSP series

LED Strobe Warning Lights for Heavy-Duty Equipment

Excellent durability and shockproof by using high hardness PC material for the lens.

Vibration resistant, shock-proof, dustproof, and waterproof products

Durable and enclosed product structure was produced for direct exposure to the environments of heavy equipment such as vibration and shock, dust and water.

Bendable pole structure prevents damage from external impact

Pole mount product is designed to prevented damage from external impact by bending in the opposite direction when impact occurs.

QA140HLSP LED Strobe Warning Light

Superior durability with fully enclosed structure and corrosion resistance, suitable for vessels and heavy industry applications

- SH1 series-Ø125mm
- SH2 series-Ø150mm

Common Specifications

- Aluminum housing and polycarbonate lens material provides excellent impact resistance under seismic conditions
- Excellent hermetic structure that blocks water and dust
- Can select a variety of light sources (Bulb, LED, and xenon) for your application needs and environmental conditions
- Terminals located inside the terminal box or product
- Cable entry : 1/2"PF
- Materials : Lens-PC, Housing-Al, Protection cage-SUS316L, Reflector for LED type-PC/ Reflector for bulb type-Heat resistant ABS
- Housing standard color : MUNSELL No. 7.5BG 7/2
- Protection rating : IP66

■ A Variety of Selectable Light Source and Function Combinations

You can select from a variety of light sources for your work environment, condition, and purpose. Basic specifications are as follows :

- LED revolving type
- LED steady/flashing type
- xenon lamp strobe type
- Bulb revolving type

User-selected LED strobe type and LED simulated revolving type are available upon request.

1 Lenses

- Utilizes a strong and durable polycarbonate material with excellent shock and vibration resistance
- The lens surface has two types depending on the light source function-Light diffusion type and light transmission type

Light transmission type		LED revolving type Bulb revolving type	SH()LR SH()
Light diffusion type		LED steady/flashing type xenon lamp strobe type	SH()L/LF SH()S

2 Protection cage

- The durable protection cage is made of corrosion resistant stainless steel that prevents damage to the lens from external contact
- Materials : SUS316L

3 Housing

- The special aluminum body housing features superior durability
- The housing is corrosion resistant from a special anodized surface treatment process
- Materials : Al

4 Fully enclosed structure

- The tightly sealed warning light structure is waterproof and dustproof
- Protection rating : IP66

5 Terminal box

- Terminal box is located on the side of housing for easy wiring
- Materials : Al

6 Brackets

- Stainless steel mounting bracket is conveniently attached to the outer surface of the product
- Materials : SUS

SH1/SH2 series Product Categories

Standard model

- Protection cage or terminal box not attached
- Terminals located inside the housing
- Use in environments that has low probability of damage to the lens due to external forces
- SH1/SH2 series is available in this model

Terminal box mounted type

- Equipped with a terminal box for easy wiring
- Terminal box enables easy wiring
- Use in environments that has low probability of damage to the lens due to external forces
- SH1T()/ SH2T() is available in this model

Protection cage mounted type

- Equipped with a Protection cage
- Terminals located inside the housing
- Damage to the lens from external forces can be prevented with protection cage
- SH1()P/SH2()P is available in this model

Terminal box and protection cage mounted type

- Equipped with a protection cage and a terminal box
- Terminal box enables easy wiring
- Damage to the lens from external forces can be prevented with protection cage
- SH1T()P/ SH2T()P is available in this model

SH1LR/ SH2LR series

Heavy-Duty LED Revolving Warning Lights for Vessels and Heavy Industry Applications

- SH1LR-Ø125mm
- SH2LR-Ø150mm

SH1LR

SH2LRP

Common Specifications(SH1L/ SH2L)

- Features high visibility in all directions with special concentrated LED light structure and multi side reflector
- Revolving speed : 120-140RPM
- Materials : Lens-PC, Housing-Al, Protection cage-SUS316L, Reflector for LED : PC
- Ambient operation temperature : -20°C to +50°C
- Cable entry : 1/2"PF
- Housing standard color : MUNSELL No.7.5BG 7/2
- Protection rating : IP66

Common Specifications(SH1/ SH2)

- Excellent light diffusion effect with multi faced reflector
- Adopts a special power transmission system that reduces noise and wear
- Revolving speed : 120-140RPM
- Standard housing color : MUNSELL No. 7.5BG 7/2
- Materials : Lens-PC, Housing-AI, Protection cage-SUS316L, Reflector-PC
- Ambient operation temperature : -20°C to +50°C
- Cable entry : 1/2"PF
- Protection rating : IP66

Warning light and electric horn combinations with excellent durability and perfectly enclosed structure, designed for vessels and heavy industry applications

■ A variety of selectable light source and function combinations

You can select from a variety of light sources for your work environment, conditions, and purpose. Basic specifications are as follows :

- LED revolving type
- LED steady/flashing type
- Xenon lamp strobe type
- Bulb revolving type

User-selected LED strobe type and LED simulated revolving type are available upon request.

① A variety of selectable warning sounds and sound messages

You can convey specific information with a variety of 20 warning sounds and voice messages.

Sound	Pattern	Ch	Sound Tone
WS	5 Warning sounds	Ch1	Fire.A-ANG
		Ch2	Emergency WA-U(Yelp)
		Ch3	Ambulance PI-PO(Hi-low)

WV	5 Customizable sound messages	Ch1 - Ch5	Customized sound tones

- SHD series - Single electric horn type
- SHD2 series - Dual-facing electric horn type

Common Specifications

- Warning light and electric horn combination models for vessels and heavy industries applications
- Aluminum housing and polycarbonate lens material provides excellent durability under seismic conditions
- Excellent hermetic structure that blocks water and dust
- Superior impact and shock resistance
- You can select a variety of sound and light sources(bulb, LED and xenon)
- Equipped with a wire guard
- Terminal box located inside the housing
- Can adjust sound volume and select sound pattern with the switches built inside the products
- Cable entry : 1/2"PF
- Materials : Lens-PC, Housing-Al, Protection cage-SUS316L, Reflector-PC, Multi-tiered reflector-Heat resistance ABS
- Standard housing color : MUNSELL No. 7.5BG 7/2
- Protection rating : IP66
- Certificates : CE Compliant

② Lens

- Polycarbonate lens material provides excellent impact resistance

③ Protection cage

- The durable wire guard is made of corrosion resistant stainless steel that prevents damage to the lens from external contact
- Materials : SUS316L

④ Housing

- The special aluminum body housing features superior durability
- The housing is corrosion resistant from a special anodized surface treatment process
- Materials : Al

⑤ Fully enclosed structure

- The tightly sealed warning light structure is waterproof and dustproof
- Protection rating : IP66

SCD series

Warning Light and Electric Horn Combinations for Vessels and Heavy Industry Applications

Light weight warning light and electric horn combinations with polycarbonate housing for vessels and heavy industry applications

- **SCDF series**
 - Self stand type
- **SCDW series**
 - Wall mount type

Common Specifications(SCDF/SCDW)

- Warning light and electric horn combinations for vessels and heavy industrial applications
- Light weight model with special polycarbonate (PC+GF) housing
- Excellent hermetic structure that blocks water and dust
- Superior impact and shock resistance
- Prevents damage from external contact with recessed horn structure, high volume output possible with the extended length of the horn housing
- Easy wiring and sound control with the terminal box attached on the side of housing
- Standard model comes with a protection cage equipped
- Can select a variety of light sources and sound pattern combinations
- Detachable mounting bracket structure enables product to be either self stand type or wall mount type
- Can adjust sound volume and select sound pattern with the switches built inside the units
- Materials : Lens-PC, Housing-PC+GF, Protection cage-SUS316L, Reflector-PC, Multi-tiered reflector-Heat resistance ABS
- Cable entry : 1/2"PF
- Ambient operating temperature
 - 20°C to +50°C : SCDFLR, SCDWLR, SCDF, SCDW
 - 30°C to +50°C : SCDFL, SCDWL, SCDFS, SCDWS
- Protection rating : IP66
- Certificates : CCS, KR, CE Compliant
- Mountings : Available in self stand type and wall mount type

SCD series Product Category Chart

Sound Selection Instructions and Wiring

• Standard Type : Select sound using the switch inside of the unit. When you turn on the dip switch for each channel, the designated sound will be played.

• Customization : External contact(LC)

Ch1 Ch2 Ch3 Ch4 Ch5 VOLUME

SCDW SERIES-DC/AC
SCDF SERIES-DC/AC

• SCDF, SCDFLR, SCDW, SCDWLR : Black output line is negative(-)

Customization

- Customized cable entry(3/4"PF) available(Standard : 1/2"PF)
- Customized external sound line type available : SCD series has built-in switch for sound tone selection
- Customized wiring available to select the sound tone via external contact or transistor wiring type(Model number : -LC)
- Cable gland type

Wall mount warning light and electric horn combinations featuring superior durability, tight seal, and corrosion resistance, designed for vessels and heavy Industrial applications

- **SED series**
- 125mm warning light & electric horn with Max 118dB sound output
- **SD series**
- 150mm warning light & electric horn with Max 118dB sound output
- **SMD series**
- 150mm warning light & electric horn with Max 120dB sound output

1 Lens

Utilizes a strong and durable polycarbonate material with excellent shock and vibration resistance.

The lens surface has two types according to the light source type and function-light diffusion type and light transmission type.

Light transmission type		LED revolving type(SEDLR) Bulb revolving type(SED)
Light diffusion type		LED steady/flashing type(SED/LF) Xenon lamp strobe type(SED/S)

2 Protection cage

- The durable protection cage is made of corrosion resistant stainless steel that prevents damage to the lens from external contact
- Materials : SUS316L

Common Specifications

- Wall mount warning light and electric horn combinations for vessels and heavy industrial applications
- Aluminum housing and polycarbonate lens material provides excellent impact and shock resistance
- Excellent hermetic structure that block water and dust
- Can select a variety of light source(bulb, LED, xenon lamp) and sound pattern combination
- Attached terminal box enables easy wiring
- Can adjust sound volume and select sound pattern with the switches built inside the products
- Cable entry : 1/2"PF
- Materials : Lens-PC, Housing-Al, Protection cage-SUS316L, Reflector-PC, Multi-tiered reflector-Heat resistance ABS
- Standard housing color : MUNSELL No. 7.5GBG 7/2
- Protection rating : IP66

■ A variety of selectable light source and function combinations

You can select from a variety of light sources for your work environment, condition, and purpose. Basic specifications are as follows :

- LED Revolving Type
- Xenon Lamp Strobe Type
- LED Steady/Flashing Type
- Bulb Revolving Type

User-selected LED strobe type and LED stimulated revolving type are available upon request.

3 A variety of selectable warning sounds and sound messages

You can convey specific information with a variety of 20 warning sounds and voice messages.

Sound	Pattern	Ch	Sound Tone
WS	5 Warning sounds	Ch1 Ch2 Ch3 Ch4 Ch5	Fire.A-ANG Emergency WA-U(Yelp) Ambulance PI-PO(Hi-low) Machinery Fault High Expansion
WP	5 Special warning sounds	Ch1 Ch2 Ch3 Ch4 Ch5	Fire.A-ANG Abandon Alarm Machinery Fault High Expansion 7 Short Pl. / 1 Long
WM	5 Melodies	Ch1 Ch2 Ch3 Ch4 Ch5	Sweet Home For Elise Cuckoo's Waltz Piano Sonata Turkish March
WA	5 Alarms	Ch1 Ch2 Ch3 Ch4 Ch5	Beep Intermittent Door Chime Phone Ring PI.PI.PI Short Tripping Beat
WV	5 Customizable sound messages	Ch1-Ch5	Customized sound tones

4 Housing

- The special aluminum housing features superior durability
- The housing is corrosion resistant from a special anodized surface treatment process
- Materials : Al

5 Fully enclosed structure

- The tightly sealed warning light structure is waterproof and dustproof
- Protection rating : IP66

6 Terminal Box

- Terminal box is located at the bottom of the product for easy wiring
- Materials : Al

SED/SD/SMD series Information

Standard type

- No protection cage is provided
- Recommended for the places where the lens is not damaged by external contact
- Model lists : SED/ SD/ SMD

Protection cage type

- Provided with protection cage
- Lens can be protected from the damage by external contact
- Model lists : SEDP/ SDP/ SMDP

SC series

Warning Light & Electric Horn Combinations

SC series can combine all of our warning light and electric horn products into a single combination model depending on your specific needs

SC1

The budget model of small-sized warning light and electric horn combinations

- Protection rating : IP44(IP rating may be varied depending on configuration of the product.)

Specification for Standard Model

- Standard combination includes S100R products combination with S100E (same as pictured to the left)

Technical Diagram

(Units : mm)

SC1

Customization

- Warning light : Select one from S100 series for the combination
- Electric horn : Select one from SN, S100E, SEN15/ 25 for the combination

SC2

Most commonly used standard-sized warning light and electric horn combination model

- Protection rating : IP44(IP rating may be varied depending on configuration of the product.)

Specification for Standard Model

- Standard combination includes S125U products combined with the SEN15 (Same as pictured to the left)

Technical Diagram

(Units : mm)

SC2

Customization

- Warning light : Select one from S125 series for the combination
- Electric horn : Select one from SN, S100E, SEN15/ 25 for the combination

SC series

Warning Light & Electric Horn Combinations

SC3

Waterproof, dustproof type warning light and electric horn combinations

- Protection rating : IP56(IP rating may be varied depending on configuration of the product.)

Common Specifications

- Combination of SH1-2T and signal horn SEWN30L(Same as pictured to the left)

SSL series

LED Signal Lights for Container Spreaders

Provides excellent durability to extreme vibration and shock
Suitable for container spreader, harbor loading equipment, and outdoor conveyor applications

**SSL100W/ SSL200W
 SSL300W/ SSL400W**

**SSL100M/ SSL200M
 SSL300M/ SSL400M**

SSL LED Steady Signal Lights for Container Spreaders

- Special anti-reflective lens applied to avoid mistaking the reflected sun light as a signal light (W type)
- M type has excellent visibility from a distance with clear and distinctive layer colors
- Superior durability in extreme vibration and shock thanks to a molded assembly process instead of conventional bolt fastened assembly method
- Customized color arrangement available(Lens color configuration is initiated from the side of cable entry)
- Materials : Housing-Al, Lens-PC
- Ambient operating temperature : -40°C to +60°C
- Certificates : CE Compliant
- Protection rating : IP68 (IEC60529)

A new concept of using the horn cover as a light globe

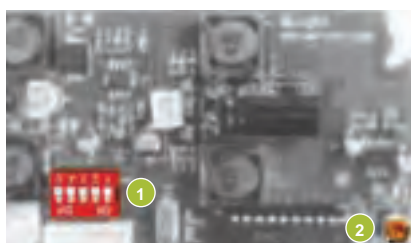

QWCD series is an integrated horn and light globe.

QWCD series	
QWCD35 QWCD35T	Built-in standard sound
QWCD35SD QWCD35TSD	MP3(SD Card)
QWCD50 QWCD50T	Built-in standard sound, large output sound
QWCD50SD QWCD50TSD	SD Card(MP3), Large output sound

- By using the horn cover as a light globe, the size of the product has been reduced significantly
- The color of light can be selected from red, yellow, green, or blue
- Product has two models : the basic model with 31 built-in sounds, and an external sound (MP3) type model
- Includes seven different playback functions; one function is the continuous playback function which provides constant message notification
- There are 31 built-in sounds that can be played in various environments, and supports a Binary input method
- You can save and play up to 31 mp3 files using a external SD Card
- Can easily set up the sounds using a PC
- By making the horn cover with polycarbonate (PC) material, The product has excellent durability and weather resistance
- Can be used for heavy-duty, ship, or outdoor use which requires waterproof, dustproof structure (IP66)

Built-in sound type

- 1 Sound selection switch
- 2 Volume

The input method of built-in sound type

	1	2	3	4	5
No.	1	2	3	4	5
0	0	0	0	0	0
1	0	0	0	0	1
2	0	0	0	1	0
:	:	:	:	:	:
31	1	1	1	1	1

Built-in sound type model supports Binary input mode which provides a selection of 31 different input combinations for five kinds of sounds.

You can only select 2 numbers with 1 switch; "0", "1". With 5 switches you can have 31 combinations. Selecting one sound from 5 switches is the Binary input method.

SD Card(MP3) type

- 1 Sound setting switch
- 2 MP3 playable SD Card
- 3 Play mode setting switch
- 4 Sound select switch
- 5 Volume

The sound selection method of SD Card type

Can easily select built-in sound or external sound(MP3) by using the sound selection switch.

The sound selection
0 : Select built-in sound
1 : Select SD Card

- 31 built-in special warning sounds
- Supports SD Card (MP3)
- Binary Input : 31Ch
- Bit Input : 5Ch (SD Card only)
- A multifunctional product that can play MP3 files using an SD Card
- Please refer to page 138 for detailed settings
- Built-in sound is set to #1 as default

QWCD series

LED Strobe Signal Light and Electric Horn Combinations

- **Qlight's exclusive innovative design - the horn cover emits light!**
- **Combination of 31 sound options built in and SD Card(MP3) option**

QWCD35 series

Common Specifications (QWCD35(SD)/ QWCD35T(SD)/ QWCD50(SD)/ QWCD50T(SD))

- Easy device customization with built in sound selection function, volume adjustment function and an SD Card slot for user inputted tones
- 31 available tones that can be selected for a variety of environments
- The user can select their own tones by inputting the MP3 file directly into the SD Card
- 31 pre-recorded tones available via binary input
- Suitable for use in environments that require a tight seal and superior dust protection rated IP66
- Easy wiring though external terminal box (QWCD35T, QWCD35TSD, QWCD50T, QWCD50TSD)
- Flashing rate : 60-80 flashes/min(steady/flashing mode selection available in built in switch)
- Materials : Horn-PC, Body-ABS+PC
- Ambient operating temperature : -50°C to +60°C(Standard type)
-20°C to +50°C(SD Card type)
- Protection Rating : IP66
- Certificates : CE Compliant, UL Listed
- Compliant with RoHS directive

QWCD35 LED Strobe Signal Light and Electric Horn Combination

Model number	Voltage	Current	Sound Pattern and Volume	Certificates	Weight	Color

Wall mount electric horn that offers 31 pre-recorded warning sounds and 30 user selected sound messages

- Bit input offers 5 channels with 6 sound outputs
- Binary input offers 31 sound outputs and SD Card (MP3) combination

• Sound Selection and Volume Adjustment Instructions

QWH series has control switches inside the unit for sound selection and volume adjustment. You can play customized sound message(MP3) with SD Card.

QWH series Product Category	
QWH35	Standard pre-recorded sound type
QWH35SD	SD Card(MP3) type
QWH50	Standard pre-recorded sound type with high volume output
QWH50SD	SD Card (MP3)type with high volume output

Common Specifications(QWH35/ QWH35SD/ QWH50/ QWH50SD)

- Signal fit for the specific environment and condition.
- Options to select between 31 special warning sounds included in the pre-recorded sound type and SD Card(MP3) type
- Volume adjustment and sound selection switches located inside the unit. SD Card in the unit offers convenient operation.
- SD Card type allows the user to input the proper voice messages for specific operating conditions.
- The SD Card type 31 Special alarms built in which includes the voice alert from the SD Card (MP3). 31 special warning sounds are built both in pre-recorded sound type and SD Card type
- Offers both Binary and Bit input mode options (only the SD Card type has the bit input)
- Tightly sealed structure that blocks water and dust with IP66 protection rating suitable for outdoor installation
- Cable entry : PG 13.5
- Materials : Horn-PC, Housing-ABS+PC
- Ambient operating temperature : -30°C to +50°C(Standard type)
-30°C to +50°C(SD Card type)
- Protection rating : IP66
- Certificates : CE Compliant, UL Listed
- Compliant with RoHS directive

Pre-recorded sound type

- 1 Switch for channel selection
- 2 Switch for volume adjustment

SD Card (MP3) type

- 1 Switch for sound pattern selection
- 2 SD Card slot for MP3
- 3 Switch for play mode selection
- 4 Switch for channel selection
- 5 Switch for volume adjustment

The input method of built-in sound type

	1	2	3	4	5
ON	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
OFF	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
No.	1	2	3	4	5
0	0	0	0	0	0
1	0	0	0	0	1
2	0	0	0	1	0
:	:	:	:	:	:
31	1	1	1	1	1

Select from 31 pre-recorded output sound options by using a combination of the 5 channel input switches.

The binary input method allows you to express each of the 31 alarm sound signals with a "0" or "1" by switching the 5 channels on and off as shown in the table.

Sound selection instruction for SD Card type

You can select between pre-recorded sound mode and SD Card sound (MP3) mode with the SOUND selection switch.

Selection between pre-recorded sound mode and SD Card sound mode
0 : pre-recorded sound mode
1 : SD Card sound mode

- 31 built-in alarm sounds and special sound
- Supports SD Cards for external sound (MP3)
- Binary Input : 31Ch
- Bit Input : 5Ch(SD Card only)
- A versatile product that can play MP3 files via the SD card
- For detailed setup instructions, please see Page 106 for the special beep-type products.
- Channel 1 is set as the factory default

- Aluminum housing provides excellent durability
- A variety of sound selection between warning sounds, alarm sounds, melodies and voice messages to fit your sophisticated application needs
- Can adjust sound volume with the dial built inside the unit
- Terminals located inside the terminal box or product
- Cable entry : 1/2"PF
- Materials : Housing-Al, Horn housing-PC/ SUS316L
- Standard Housing color : MUNSELL No. 7.5BG 7/2
- Ambient operating temperature : -30°C to +50°C
- Protection rating : IP56, Suitable for outdoor installation
- Certificates : CCS, CE Compliant

Sound Selection and Wiring Instructions

- Standard type : Select sound using the switch inside the unit. When you turn on the dip switch for each channel the sound is turned on.
- Customized type : Select sound using the external contact(LC)
You can select the audible sound pattern using external contacts or transistor with a customized external sound line(Model number : -LC)
- Product can be wired regardless of polarity

Alarm Bells with Lamp Attached for Vessels and Heavy Industrial Applications

SAB130
-Bell housing Ø130mm

SAB200
-Bell housing Ø200mm

SAB130/ SAB200 Max 95dB

- Electric solenoid bell system provides excellent durability to vibration and shock for vessels and large facilities
- Special material for bell housing provides clear and crisp alarm sound
- Excellent vibration and shock resistant structure for superior durability
- Easy wiring and maintenance with terminal box attached
- Lamp attached provides visual signals
- Bell and lamp operation is synchronized. Each function can also operate separately
- Sound volume : Max 95dB at 1m
- Standard color : Housing-beige, Bell/ Lamp-Red
- Materials : Bell-Steel, Housing-ABS
- Ambient operating temperature : -25°C to +50°C
- Protection rating : IP44
- Cable entry : PG19

Explosion Proof Product Applications

Semiconductor Factory

Applied in a plumbing system for flammable materials used in the semiconductor manufacturing process

Power Plant

Applied in hazardous areas with possibilities of explosion cause by coal dust in thermal power plants

Petrochemical Plant

Applied in areas such as refineries where explosive materials are always present

Nuclear Power Plant

Applied in areas where explosive materials are always present such as pipes and ducts of a generator cooling system

Oil Tanker

Applied in areas where explosive materials are always present such as ships carrying oil and gas

Electric Facilities

Applied in electrical equipment where flammable gas, vapor or dust exist

Flour Factory

Applied in danger zones where there is a possibility of explosion caused by grain dust

Off Shore Plant

Applied in mining equipment which produces or stores flammable materials such as oil and gas

Coal Mine

Applied in areas where hazardous materials such as coal dust is always present

Steel Industry

Applied in danger zones where hazardous materials such as gas is always present

Gas Station

Applied in danger zones where flammable materials are stored

Metal Processing Industry

Applied in danger zones where explosive metal, dust, and flammable gas are always present

Explosion Proof Technical Data

Technical Data for Explosion Proof Products

- 3 elements of explosion**
 Flammable substance, ignition source, and oxygen are the 3 elements of an explosion. The explosion will occur when the three components are met. If one of the three components does not exist the explosion will not occur.
- What is explosion proof?**
 Preventing the combination of the 3 elements of explosion.
- Explosion proof product**
 Typically, products will include electrical parts that can be an explosion ignition source. However, explosion proof products are designed to prevent spark/ignition.

Explosion Proof Structure Classifications

The data indicated below are some of the classification specifications by structure type of the explosion proof products. Furthermore, there are mold explosion proof structure, charging explosion proof structure and special explosion proof structure. The explosion proof classification structure is separated depending on product application areas.

Flame Proof		Purged/ Pressurized	
	Ex d Zone1, 2 All electrical circuits are enclosed in a house strong enough to contain any explosion or fire that may take place on the inside.		Ex p Zone1, 2 Type of protection in which the protective inert gas inside the enclosure is maintained at a higher pressure than that of the surrounding atmosphere.
Increased Safety		Non-Sparking	
	Ex e Zone1, 2 Electrical circuits incorporates special measures to reduce the probability of excessive temperatures and the occurrence of arcs and sparks in normal service.		Ex n Zone2 Method of protection for electrical equipment designed so that it will not ignite the surrounding explosive atmosphere in normal operation and under certain fault conditions specified in the standard.
Intrinsic Safety		Dust Explosion Proof	
	Ex i Zone 0, 1, 2 The electrical energy available in circuits and equipment, is limited to a level to low to ignite the most easily ignitable mixtures in a hazardous area.		Ex td Zone 21, 22 The apparatus is enclosed in a manner that will exclude ignitable amounts of dusts and will not permit arcs, sparks or heat generated or liberated inside the enclosures to cause ignition of exterior dust accumulations on the enclosure or of atmospheric dust suspensions in the vicinity of the enclosure.

Technical Data of Explosion Proof

Hazardous Area Classification

Zone 0	Where ignitable concentrations of flammable gases, vapors, or liquids are present continuously or for long periods of time under normal operating conditions.
Zone 1	Where ignitable concentrations of flammable gases, vapors, or liquids are likely to exist under normal operating conditions.
Zone 2	Where ignitable concentrations of flammable gases, vapors, or liquids can occur for only a short period of time.
Zone 20	Where explosive atmosphere in the form of a cloud of combustible dust in air is present continuously, or for long periods or frequently.
Zone 21	Where explosive atmosphere in the form of a cloud of combustible dust in air is likely to occur, occasionally, in normal operation.
Zone 22	Where explosive atmosphere in the form of a cloud of combustible dust in air is not likely to occur in normal operation but, if it does occur, will persist for a short period only.

<Areas classification example>

Condition	IEC	NEC500	JIS, KS
Continuous hazard (more than 1000 hours per year)	Zone 0 Zone 20(DUST)	Division 1	Zone 0
Intermittent hazard (10-1000 hours per year)	Zone 1 Zone 21(DUST)		Zone 1
Possible hazard (0.1-10 hours per year)	Zone 2 Zone 22(DUST)	Division 2	Zone 2

Models Available for Each Zone

Area Classification	Model
Zone 1	SNE, SEA, SE, SSEL, SESA, SEBA, SNES, SPNA, QEB, SBE130, SBE150, QTEX, QTEXB, ST45ML2-Ex, STB45ML2-Ex, ST45ML3-Ex, STB45ML3-Ex, QLEX-350, QMFL-300-Ex-24
Zone 2	SNE, SEA, SE, SSEL, SESA, SEBA, SNES, SPNA, QEB, SBE130, SBE150, QEAL1, QTEX, QTEXB, ST45ML-Ex, STB45ML-Ex

Technical Data of Explosion Proof

Classification by Group

Explosion proof equipment is classified as below depending on the risk characteristic of explosive gas.

EXPLOSION GROUP FLAMMABLE	FLAMMABLE SUBSTANCE	FLAMMABILITY
II	Methane	
II A	Acetone, Petrol, Methanol, Propane, Toluene	Low
II B	Ethylene, City gas	High
II C	Hydrogen, Acetylene, Carbon sulphide	Very High

Temperature Class Definition

The temperature class is defined as below depending on the surface temperature of the explosion proof equipment.

The range of Maximum surface temperature per temperature class	
The range of Maximum surface temperature	temperature class
300°C - 450°C	T1
200°C - 300°C	T2
135°C - 200°C	T3
100°C - 135°C	T4
85°C - 100°C	T5
Below 85°C	T6

The Ignition Class and Temperature of The Explosive Gas

- 1) If the temperature class gets higher from T1 to T6, the ignition temperature gets lower.
- 2) If the explosion group changes from I to II C, the explosion gets bigger.

	T1(G1)	T2(G2)	T3(G3)	T4(G4)	T5(G5)	T6(G6)
I	Methane					
II A	Acetone, Ethane Ethyl ethanoate Ammonia Benzol(Pure) Ethanoic acid Carbon oxide Methane, Methanol Propane, Toluene Acetic acid Ethyl acetate Ethyl chloride Carbon Monoxide Methylene Chloride Naphthalene, Phenol	Ethanol i-Amyl acetate n-Butane n-Butyl alcohol Ethyl alcohol Cyclohexane Acetic anhydride	Benzene Diesel fuel Aircraft fuel Heating oils n-Hexane Petroleum spirit - Gen Jet propulsion fuel Heating fuel DIN 51603	Acetaldehyde Ethyl ether		
II B	Town gas Coal gas (lighting gas)	Ethylene Ethylene oxide	Ethylene Ethylene oxide	Ethyl ether		
II C	Hydrogen	Ethine(Acetylene)				Carbon disulphide

ST45ML-Ex

Non Sparking Explosion Proof LED Tower Lights

ST45ML-Ex Standard Model

Non-sparking explosion proof LED tower lights suitable for use in zone 2 hazardous areas

ST45ML-Ex

Gas cabinets used in the semiconductor industry require constant supply of specialty gases and pressure to properly store the devices. Non-sparking explosion proof products (ST45ML-EX) must be used in these conditions.

Common Specifications(ST45ML-Ex/ STB45ML-Ex)

- Non-sparking explosion protected high-intensity LED steady tower lights
- Excellent distance visibility by using a special reflector to arrogate the light from the LED filament
- Reduced maintenance with use of long-lasting LED light source
- Lens and housing are made of polycarbonate with excellent durability, suitable for potentially hazardous and explosive environments
- Can be used for Zone 2 application with explosion proof rating of nR
 - ※ Zone2 : Equipment is capable of operating under abnormal high risk environmental conditions for a short duration
- Materials : Lens-PC, Housing-PC, Mounting housing-Al
- Certificates : KCs, CCC
- Explosion protection rating : KCs - Ex nR II T4 IP54, Ex nR II T6 IP54(Layer 2, 3 Only) CCC, NEPSI - Ex nR IIC T6 Gc
- Protection rating : IP54
- Ambient operating temperature : $-20^{\circ}\text{C} \leq T_{\text{amb}} \leq +40^{\circ}\text{C}$

⚠ Cautions in use of explosion proof tower lights

Contact structure of an explosion proof product must be a qualified part we provide, please do not disassemble, assemble, modify or repair arbitrarily.

QTEX series

Explosion Proof LED Tower Lights Flame Proof Housing

QTEX - Standard model

Explosion proof LED tower lights with flame proof housing

QTEX
Direct mount type

QTEX
Wall mount type

Common Specifications(QTEX/ QTEXB)

- Explosion proof LED tower lights with Ex d IIC rating can be used in explosive gas environments
- Excellent distance visibility by using a special reflector to aggregate the light from the LED filament
- Ø80 LED tower light mounted inside the flame proof housing
- Aluminum housing provides excellent durability
- Long-lasting high intensity LED light source
- Terminal box located inside the housing for easy power wiring
- Direct mount type and wall mount type available depending on application needs.
- Flashing rate: 60-80 flashes/min
- Selectable between steady/flashing mode with proper wire arrangement
- Sound volume : Max 90dB at 1m(QTEXB Type)
- Lens colors arrangement : ●R-Red ●A-Amber ●G-Green ●B-Blue ●W-White
- Standard housing color : Silver
- Cable entry : 3/4" NPT
- Materials : Lens-Tempered glass, Filter lens-AS, Housing-AI, Reflector-Heat resistant ABS
- Certificates : IECEx, ATEX, KCs, TIIS
- Protection rating : Ex db IIC T6 Gb, IP66
- Ambient operating temperature : $-40^{\circ}\text{C} \leq T_{\text{amb}} \leq +60^{\circ}\text{C}$

Hazardous Area Classification

- **Zone 0 : Dangerous status**
Ignitable concentrations of flammable gases or vapors which are present continuously or for long periods of time.
- **Zone 1 : Normal status**
Ignitable concentrations of flammable gases or vapors which are likely to occur under normal operating conditions.
- **Zone 2 : Abnormal status or places**
Ignitable concentrations of flammable gases or vapors which are not likely to occur under normal operating conditions and do so only for a short period of time.

Explosion proof structure for buzzer model

What is a Flame Arrester?

A flame arrester(also called a deflagration arrester) functions by absorbing the heat from a flame front traveling at sub-sonic velocities, thus dropping the burning gas/air mixture below its auto-ignition temperature: consequently, the flame cannot survive. The heat is absorbed through channels (passages) designed into an element.

Customization

- Explosion proof cable gland attached type available (Standard type does not come with explosion proof cable gland)
- Customized cable entry (1/2"NPT, M20X1.5, M25X1.5, 1/2"PF(KCs), 3/4"PF(KCs)) available
- Two way cable entries

QTEX/ QTEXB – Wall mount

⚠ Cautions in using explosion proof tower lights

- Explosion proof products should be maintained by explosion proof regulation, please do not disassemble, assemble, modify or repair arbitrarily. In case disassembly is required for wiring or repair, structures such as the contact parts should maintain the same initial condition that we provided.
- Cable gland must be used in explosion proof certified products which satisfy the T6 temperature rating and IP66 protection rating.

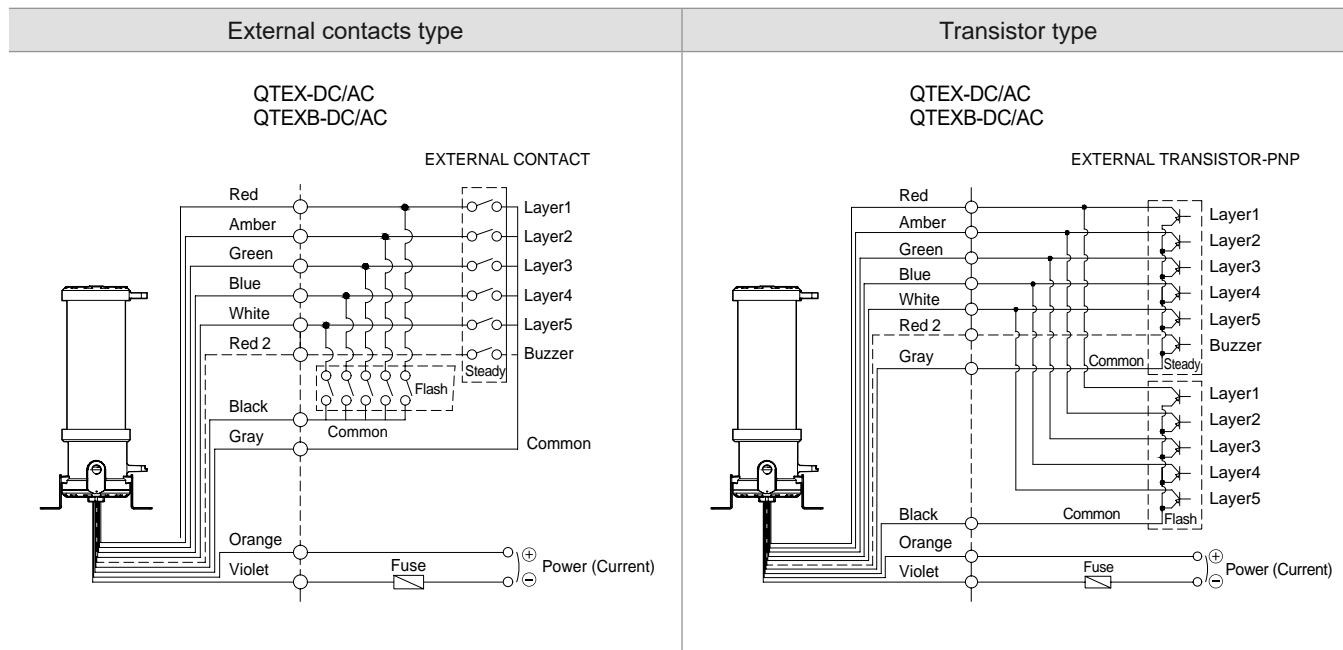

QTEX series

Explosion Proof LED Tower Lights with Flame Proof Housing

Wiring Instructions

- QTEX/ QTEXB wiring with transistors and external contacts.
- In case of wiring with transistors, please use PNP transistors and wiring exactly following below technical diagram.
- Product can be wired regardless of polarity.

Terminal Wiring Information

1 Layer (RED LED)
 2 Layers (AMBER LED)
 3 Layers (GREEN LED)
 4 Layers (BLUE LED)
 5 Layers (WHITE LED)

 (-) Power

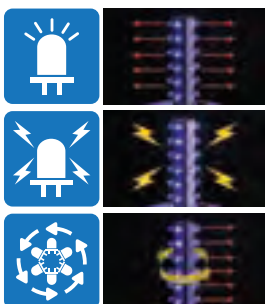

QTEX series consists of a blocked terminal which is convenient for internal wiring of the terminal box. Please refer to technical diagram for detailed Wiring Instructions.

QNE series

Ø92mm Explosion Proof LED Signal/ Warning Light

Flame proof LED signal light that features steady/flashing, strobe, and simulated revolving light functions in one unit

- **LED Steady/ Flashing**
Repeat operation of LED light on/off
- **LED Strobe**
Short LED steady/flashing. Creates a xenon flashing effect by providing maximum electric current
- **LED Simulated Revolving Flashing**
LED flashes steadily around the cylindrical LED filaments which makes a simulated revolving effect

Instruction for Light Function Switch

ON=1 / OFF=0

Can select 4 different kinds of light functions with switch configuration

No.	1	2	Operation
0	0	0	LED Steady
1	0	1	LED Flashing
2	1	0	LED Strobe
3	1	1	LED Simulated revolving flashing

Specifications (QNE/ QNE-SUS/ QNE-BS)

- Explosion proof, multifunctional, and compact LED signal light designed for use in explosive gas environments with Ex d IIC rating
- Features excellent shock and vibration resistance, maintenance significantly reduced with long-lasting LED light source
- Features superior durability with aluminum housing(QNE)
- STS housing provides superior durability and corrosion resistance(QNE-SUS)
- Fully enclosed structure with protection rating of IP66
- Housing standard color : Red, MUNSELL No. 7.5BG 7/2
- Cable entry : 1/2" NPT
- Flashing rate(LF type) : 60-80 flashes/min.
- Strobe rate(LS type) : 70-80 flashes/min.
- Simulated revolving rate(LR type) : 120-140RPM
- Materials : Lens-Tempered glass, Inner lens-PC, Bracket-ST304, Protection cage-ST316, Housing-Al(QNE), STS(QNE-SUS)
- Certificates : ATEX, IECEx, KCs
- Protection rating : ATEX - $\text{Ex db IIC T5/T6 Gb}$, IP66
IECEX- $\text{Ex db IIC T5/T6 Gb}$, IP66
KCs - Ex d IIC T6/T5 , IP66
- Ambient operating temperature : $-40^{\circ}\text{C} \leq T_{\text{amb}} \leq +60^{\circ}\text{C}$ (T5)
 $-40^{\circ}\text{C} \leq T_{\text{amb}} \leq +50^{\circ}\text{C}$ (T6)

Flame proof LED signal light that features steady/flushing, strobe, and simulated revolving light functions in one unit

- **LED Steady/ Flushing**
Repeat operation of LED light on/off
- **LED Strobe**
Short LED steady/flushing. Creates a xenon flashing effect by providing maximum electric current
- **LED Simulated Revolving Flashing**
LED flashes steadily around the cylindrical LED filaments which makes a simulated revolving effect

Instruction for Light Function Switch

ON=1 / OFF=0

Can select 4 different kinds of light functions with switch configuration

No.	1	2	Operation
0	0	0	LED Steady
1	0	1	LED Flushing
2	1	0	LED Strobe
3	1	1	LED Simulated revolving flashing

Common Specifications(QNE-CR/ QNE-CR-SUS)

- Small explosion proof ATEX/IECEX certified LED Signal Beacon
- Multiple lighting effects such as LED Steady/Flushing, strobe, and simulated revolving
- ATEX/IECEX exproof Beacon sounder combination unit that can be used in an environment of extremely low temperature as low as -52°C(-61.6°F)
- Cold resistant parts realizes stable operation of beacon at very low temperature
- Features excellent shock and vibration resistance, maintenance significantly reduced with long-lasting LED light source
- Features superior durability with aluminum housing(QNE-CR)
- STS housing provides superior durability and corrosion resistance(QNE-CR-SUS)
- Fully enclosed structure with protection rating of IP66
- Housing standard color : Red, MUNSSELL No. 7.5BG 7/2
- Cable entry : 1/2" NPT
- Flashing rate(LF type) : 60-80 flashes/min.
- Strobe rate(LS type) : 70-80 flashes/min.
- Simulated revolving rate(LR type) : 120-140RPM
- Materials : Lens-Tempered glass, Inner lens-PC, Bracket-ST304, Protection cage-ST316, Housing-Al(QNE-CR), STS(QNE-CR-SUS)
- Certificates : ATEX, IECEX
- Protection rating : ATEX - $\text{Ex db IIC T5/T6 Gb}$, IP66
IECEX- $\text{Ex db IIC T5/T6 Gb}$, IP66
- Ambient operating temperature : $-52^{\circ}\text{C} \leq T_{\text{amb}} \leq +60^{\circ}\text{C}(T5)$
 $-52^{\circ}\text{C} \leq T_{\text{amb}} \leq +50^{\circ}\text{C}(T6)$

SNE series

Ø130mm Explosion Proof Warning/ Signal Lights

SNELR

SNEL

Flameproof warning/indicator lights are applied in an areas where potentially explosive materials may linger. For example, from a pipe or duct in a coolant generator system in a nuclear power plant in the image above.

Common Specifications(SNELR/ SNEL/ SNE-S/ SNE)

- Light weight and compact explosion proof warning lights with a variety of light source selections from bulb, LED, and xenon lamp
- Aluminum housing provides excellent durability
- Fully enclosed structure with protection rating of IP66
- Integrated housing and terminal box model
- Housing standard color : MUNSELL No. 7.5BG 7/2
- Cable entry : 1/2" NPT
- Materials : Lens-Tempered glass, Inner lens-PC, Housing-Al, Protection cage-STSS 316L, Reflector for LED type-PC/ Reflector for bulb type-Heat resistant ABS
- Certificates : IECEx, ATEX, NEPSI, KCs, CCS, CCC(F), TIIS, CCC
- Protection rating :
 - IECEX - Ex db IIC T6 Gb, Ex db op is IIC T6 Gb
 - ATEX - Ex d IIC T6 Gb , Ex db op is IIC T6 Gb
 - KCs - Ex d IIC T6
 - NEPSI, CCC - Ex d IIC T6 Gb
 - TIIS - IIC T6 Gb (SNEL DC12/24V, AC110V only)
- Ambient operating temperature : $-40^{\circ}\text{C} \leq \text{Tamb} \leq +60^{\circ}\text{C}$
 $-40^{\circ}\text{C} \leq \text{Tamb} \leq +55^{\circ}\text{C}$ (KCs)
 $-20^{\circ}\text{C} \leq \text{Tamb} \leq +55^{\circ}\text{C}$ (TIIS, SNEL only)

SNELR LED Revolving Warning Light

- Features high visibility in all directions with special concentrated LED light structure and multi side reflector
- Revolving speed : 120-140RPM

SEA series

Ø150mm Explosion Proof Warning/ Signal Lights

SEALR

SEAL

Flameproof warning/ signal lights applied in areas where combustible substances such as oil are carried in bulk on a vessel.

Common Specifications(SEALR/ SEAL/ SEAS/ SEA)

- Large explosion proof warning/ signal lights with excellent visibility for long distance
- A variety of light source selections from bulb, LED, and xenon lamp
- Aluminum housing provides excellent durability
- Fully enclosed structure with protection rating of IP66
- Integrated housing and terminal box model
- Housing standard color : MUNSELL No. 7.5BG 7/2
- Cable entry : 1/2" NPT
- Materials : Lens-Tempered glass, Inner lens-PC, Housing-Al, Protection cage-STSS 316L, Reflector for LED type-PC/ Reflector for bulb type-Heat resistant ABS
- Certificates : IECEx, ATEX, NEPSI, CCS, KR
- Explosive protection rating :
 - IECEX - Ex db IIC T6 Gb
 - ATEX - $\text{Ex} \text{II} 2 \text{G Ex db IIC T6 Gb}$
 - KCs - Ex d IIC IP66 T6
 - NEPSI, CCC - Ex d IIC T6 Gb
- Ambient operating temperature : $-40^{\circ}\text{C} \leq \text{Tamb} \leq +55^{\circ}\text{C}$ (KCs)
 $-40^{\circ}\text{C} \leq \text{Tamb} \leq +60^{\circ}\text{C}$

SEALR LED Revolving Warning Light

- Excellent omni-directional visibility with LED light collecting system and special multifaceted reflector
- Revolving speed : 120-140RPM

Cautions in use of explosion proof LED work lights

- Contact structure of an explosion proof product must be a qualified part we provide. Please do not disassemble, assemble, modify or repair arbitrarily.

QLEX-SLM series

Explosion Proof LED Work Light

QLEX-SLM series Explosion Proof LED Work Light

- Explosion proof LED work light designed for use in explosive gas environments with Ex d IIC rating
- Enhanced durability with aluminum housing and polycarbonate lens tube
- Semi-permanent service life with long-lasting LED light source
- Features special structure that allows to adjust light angle by turning the light tube
- Materials : Side cover-AI, Lens-PC, Bracket-AI
- Certificates : KCs, NEPSI, CE, S-mark, IECEX, ATEX
- Protection rating : IECEX - Ex db II C T6 Gb
ATEX - Ex II 2 G Ex db IIC T6 Gb
KCs - Ex d IIC T6(Except QLEX-SLM-250-220)
NEPSI - Ex d IIC T6 Gb(Only : QLEX-SLM-250-24)
- Ambient operating temperature :
QLEX-SLM-650 IECEX/ATEX: $-40^{\circ}\text{C} \leq T_{amb} \leq 60^{\circ}\text{C}$ (DC)
QLEX-SLM-650 IECEX/ATEX: $-40^{\circ}\text{C} \leq T_{amb} \leq 55^{\circ}\text{C}$ (AC)

QEAL1

Explosion Proof Low Intensity LED Aviation Obstruction Light

QEAL1 Explosion Proof Low Intensity LED Aviation Obstruction Light

- Low Intensity B type explosion proof aviation obstruction light
- Features high visibility from a distance with the direct LED light distribution system
- Cost savings enabled by using a long lasting LED light source which eliminates the need for maintenance
- Aluminum housing provides excellent durability
- Terminals located inside the housing for wiring
- Protection rating : Ex d IIC T4, IP66

Explosion proof aviation obstruction lights are installed within hazardous areas on a surface that is more than 60m from the water surface or land such as towers and smokestacks.

Technical Certification

Qlight products are designed to meet strict quality and technical standards. Thus, the Qlight brand is widely recognized for its high quality and technical innovations from leading institutions around the world.

ISO International Organization for Standardization

Qlight quality assurance systems have been certified by ISO by applying the ISO 9001:2008, KS Q ISO 9001:2009 regulation.

IECEX International Explosion Proof Certification (IECEX)

Certified that Qlight's products are being manufactured and managed according to international standards.

ATEX The European Regulatory Framework or Manufacture, Installation and Use of Equipment in Explosive Atmospheres

Qlight explosion proof products comply with ATEX Directives 94/9/EC.

NEPSI National Supervision and Inspection Center for Explosion Protection and Safety of Instrumentation

Qlight's design and manufacturing system meets the People's Republic of China National explosion proof Standard. (Chinese Standard-GB3836/GB12476)

KCs Explosion proof device safety Certification System

The safety performance of machines and equipment subject to safety certification and Technical capability and production system have been certified safety certification standards.

TIIS Japan Explosion-proof Certification

Japan explosion-proof certification is an international mutual certification system for explosion-proof electrical equipment. Qlight have been certified that explosion-proof products are manufactured and managed according to international standards.

CCS China Classification Society

Qlight design and quality assurance system has been certified by the China Classification Society.

RMRS Russian Maritime Register of Shipping

Qlight design and quality assurance system has been certified from Russian Maritime Register of Shipping.

LR Lloyd's Register

Qlight design and quality assurance system has been certified from Lloyd's Register.

KR Korean Register of Shipping

Qlight design and quality assurance system has been certified by the Korean Register of Shipping.

KC Korea Safety Certification

Qlight products are certified by KC for preventing accident caused by fire.

E-mark Commission Directive Regarding Vehicle Industry

Qlight has obtained EU mark for approved vehicles and vehicle components sold into the EU (EEA : European Economic Area)

UL Underwriters Laboratories

Qlight design and quality assurance system has been certified from UL to ensure the stability of consumption goods and to protect consumers.

KCC Conformity assessment of broadcasting communication equipments

Qlight have been certified to protect the electromagnetic environment that causes unwanted electro-magnetic waves from the device, communication failure due to other devices or external radio waves, and malfunction of the device.

ICAO International Civil Aviation Organization

Qlight guarantees our products satisfy the criteria regulated by the International Civil Aviation Organization (ICAO, FAA).

CCCF China Certification Center for Security & Protection

Qlight have passed the rigorous examination process of "Passing Fire Protection Products Centering" in order to sell fire-fighting products such as fire alarm equipment to Chinese market.

CCC China Compulsory Certificate

Qlight has obtained CCC which guarantees safety, protection against fraud, environment, etc.

CE European Commission

Qlight has been certified by the European Commission.

RoHS2 Restriction of Hazardous Substances Directive

Qlight complies with the Restriction of Hazardous Substances Directive by limiting its use of hazardous materials.

Bulb Specification

The table below summarizes bulb specifications that are equipped with Qlight's products. Please carefully review the bulb specification in case bulb replacement is needed. Otherwise it may cause part malfunction.

Light Source of Warning Light/ Signal Light

SELECTION OF WARNING LIGHT

The selection of signaling devices will depend on the particular situation and environment.

- Whether the location of installation is dark or bright.
- Whether the signal transmission range should be short or long, or should have good visibility.
- Whether you need an economical but short lifetime product or upscale product with longer lifetime.
- Whether the environment is harsh with vibration and shock, or the environment is stable so that the life of the lights can be guaranteed.
- The selection of signaling device can be different depending on the situation and environment. The convenience and efficiency of maintenance should also be considered.

※ Factors to consider in signal selection

1. Purpose
2. Signal transmission
3. Environment
4. Budget
5. Ease of maintenance

TYPE OF LIGHT SOURCE

Bulb

Light bulb is a light source that uses temperature reflection generated by the current flowing through the light bulb filament (thin line of metal), tungsten wire coil filament is often used. The hot filament is protected from oxidation with a glass sphere injected with inert gas (Argon gas, etc.). Typical characteristics of the gas injected bulb is described below.

1. If the input voltage decreases more than 10% of the rated voltage, the bulb life increases four times than before, and the power consumption is reduced by 85%.
2. On the other hand, If input voltage is 10% higher than the rated voltage, the life of the bulb is shortened by about 30% and the power consumption increases about 16%, and the brightness is increased by about 40%. The standard service life of a normal bulb is about 1,000 - 1,500 hours.

LED

The LED is a light emitting diode which emits light by injecting a current in the PN junction of the special semiconductor, semiconductors such as GaAs, GaP that Maximizes the electro-optical conversion effects are used. Like other semiconductors, over-voltage or ambient temperature affects the lifetime, but due to the absence of mechanical abrasion of the part, LED is shock/ vibration resistant so there is no need for proper seismic design. The standard service life of an LED is about 50,000 hours.

Xenon Lamp

Xenon lamp is a flash type light source that emits bright light instantly by inserting high energy into the lamp. Compared with the steady type lamp, xenon lamps need a lot of input power instantly and a extremely large amount of light it is diffused.

The lamp is filled with xenon(Xe) gas due to the convenience of the production(choice of materials), its use, xenon lamp was named after the xenon gas that it uses. xenon lamps are also resistant to vibration due to its mounting method. In addition, it is visible even in bright environments not only because the spectacle distribution of the visible light is close to the sunlight, it uses the same method as the strobe of the camera.

Warning Light/ Indicator Light Operating Principle

Bulb Steady/ Flashing Type

- Highly diffusible light bulb that refracts light through a special lens and can be used in a steady or flashing state

Bulb Revolving Type

- By combining a highly diffusible light bulb and a reflector, light is reflected in a parallel beam with a rotating cycle
- Our bulb revolving model has a long lifetime enabled by using a high durability bulb and a power transfer system that minimizes noise and abrasion

LED Revolving Type

- The combination of an LED and a reflector creates a parallel light beam with a rotating cycle
- Our LED revolving model is patented for emitting light with the same level of uniformity and brightness compared to the bulb reflecting type

LED Steady/ Flashing Type

- The indirect light distribution system uses a special structure to radiate a uniform light signal throughout the entire body of the lens by using a multi-stage reflector
- The direct light distribution system uses a high-intensity LED light and diffusion lens to transfer signal over a long distance. Qlight LED lights / flashing lights are equipped with two structures depending on the model type, Steady or Flashing Type

LED Strobe-Type

- By shortening the LED flashing period and supplying the maximum current to the LED, it produces a flash effect just like the xenon lamp

LED Simulated Revolving Type

- By uniformly arranging the LED lens in a 360 degree circumferential direction, it will produce a flash in a regular rotating sequence
- The visual effect looks just the same as the revolving model

Xenon Lamp Strobe-Type

- The strobe type model uses a xenon lamp that instantly emits a high brightness light by supplying large energy
- Requires more power than other flashing type models, and the flash is brighter in comparison
- Has excellent vibration resistance compared to regular light bulbs but is not superior to LEDs
- Can spread strong light signals in all directions because of the light projecting structure

Pre-recorded Sound Tone and Sound Combination Chart

■ 17 pre-recorded sound tones for standard type products

Sound Number	Sound Tone	Sound Number	Sound Tone
SND01	Fire.A-ANG	SND10	Cuckoo's Waltz

WA	5 alarms	Ch1 Ch2 Ch3 Ch4 Ch5	Beep Intermittent Door Chime Phone Ring PI.PI.PI Short Tripping Beat	WS/ WP/ WM/ WA No.4
WV	5 customizable sound	Ch1 Ch2 Ch3 Ch4 Ch5	<ol style="list-style-type: none"> Voice messages are pre-recorded and provided from factory upon user's request Each channel has recording space for 16 sec 5 channels available When only one channel is used, maximum recordable space is 80 sec 	-

※ Please refer to page 108 for detailed information about selectable sound patterns.

■ Sound Selection of Signal Sounds

Standard specification : Use internal switches

Turn on dip switches of each channel, designated sound will be played.

Special Alarm Type Feature

■ How to set-up the special alarm type products

- A special alarm type products are classified into two models; basic model with special alarm and SDcard (MP3) model.
- The 2 models have 31 built-in sounds, which can be chosen and played by binary input method.
- When storing MP3 files on the SDcard (MP3) type models, you can select and play up to 31 sounds by using the binary input method. The bit input method can play 5 sound from #1 to #5, depending on the specifications given in the file name(For file specifications refer to Page 96.)
- Includes eight play mode settings. For example, when the continuous playback setting/ function is selected the warning message is played continuously for conditions that require frequent playback.

■ Built-in sound type model

- 1 - 2 N/A
- 4 Sound select switch
- 5 Volume

■ SDcard type model

- 1 Sound setting switch
- 2 MP3 playable SDcard
- 3 Play mode setting switch
- 4 Sound select switch
- 5 Volume

※ Built-in sound type model can select and play 31 sounds by using the sound selection switch.

■ SDcard(MP3) type product feature

1 SOUND setting switch

- If the switch is ON the SDcard (MP3) will be played, and if the switch is OFF the built-in sounds will be played.

2 SDcards

- The SDcard is a compact flash memory card for storing MP3 files.
- After saving the MP3 files in the SDcard with the specified format, insert the card into the SDcard slot and switch the sound setting switch to ON so the sounds can be played from the SDcard.

3 PLAY MODE setting switch

- PLAY MODE setting switch is used to choose the channel input method or select various playing modes. Refer to the table below for switch features.
- Switch #0 and #9 is not used.

1	Bit Input Mode	5 sounds can be played from the selected group (choose one group from six groups) Play sound only once (if using sequential signal input or pulse signal input)
2	Binary Input Mode	Up to 31 sounds available for each model. Plays sound only once (sequential signal input only)
3	Bit Input Hold Playback Mode	5 sounds can be played from the selected group (choose one group from six groups) The sound is repeated if the input signal is maintained. (sequential signal input only) If the STOP signal is inputted, the sound is turned off, and if the STOP signal is disabled the sound is played repeatedly
4	Binary Input Hold Playback Mode	Up to 31 sounds available for each model The sound is repeated if the input signal is maintained. (sequential signal input only) If the STOP signal is inputted, the sound is turned off, and if the STOP signal is disabled the sound is played repeatedly
5	Bit Input Sound Reduction Mode	5 sounds can be played from the selected group (choose one group from six groups) You can reduce the volume(15dB) by using a separate volume reduction signal line (same as volume reduction signal input)
6	Binary Input Sound Reduction Mode	Up to 31 sounds available for each model You can reduce the volume(15dB) by using a separate volume reduction signal line (same as volume reduction signal input)
7	Bit Input Sequence Memory Playback Mode	5 sounds can be played from the selected group (choose one group from six groups) If the sound is inputted in a order, it will remember the order and play each sound about 3 seconds. The last input channel is fully played (bit input mode only)
8	Test Mode	In test mode, Ch1 of group is automatically played back repeatedly. To end the test mode, switch back to the other modes.

4 Channel selection switch

- By using 5 channel selection switches, one can choose the appropriate sound source depending on the Binary input and Bit input.

5 VOLUME

- You can adjust the speakers sound output by using the volume dial.

Sound Pattern and Combination for Special Alarm Type

■ Sound pattern for special alarm type

- Special alarm type product has 31 pre-recorded sound tones.
- Supports binary input mode. 5ch switch allows for 31 sound tones.

• Composition of binary input mode

ON = 1 / OFF = 0						Left channel switch allows for choosing 31 sound tones. Channel switch will be substituted for an external wiring in case of LC type products.	Sound tone	Frequency
ON OFF	Ch1	Ch2	Ch3	Ch4	Ch5			
No.	1	2	3	4	5			
0	0	0	0	0	0	No sound		
1	0	0	0	0	1	Rel rel rel		730Hz-920Hz

Multifunctional Type Feature

■ How to set up the multifunctional products(MP3)

- Multifunctional type products can play MP3 sounds by using an SDcard and can also play WS (5 Warning sounds), WP (5 special warning sounds 1st Group), WM (5 Melodies), WA (5 Alarms), WO (5 special warning sounds 2nd Group), and WN (5 special warning sounds 3rd Group) when not using a SDcard.
- Includes seven different functions. For example, it is able to playback the message continuously with the continuous playback function for warning message that needs to be repeated often.

■ Function setting

1 Sound setting switch

Group Choice in Bit Input Mode

- 001 : WS (5 Warning sounds)
- 010 : WP (5 special warning sounds 1st Group)
- 011 : WM (5 Melodies)
- 100 : WA (5 Alarms)
- 101 : WO (5 special warning sounds 2nd Group)
- 110 : WN (5 special warning sounds 3rd Group)

Sound Selection

- 0 : Built-in sound
- 1 : SDcard(MP3)

- #1 switch from the sound setting switch is for selecting Built-in sound/ SDcard
- #2 – #4 switch is for selecting a group of sound incase you have selected bit input mode

2 SDcards

- The SDcard is a compact flash memory card for storing MP3 files.
- After saving the MP3 files in the SDcard with the specified format, insert the card into the SDcard slot and switch the sound setting switch to ON so the product will be able to play sounds from the SDcard.

3 PLAY MODE setting switch

- PLAY MODE setting switch is used to choose the channel input method or select various play modes. Refer to the table below for switch features.
- Switch #0 and #9 is not used.

1	Bit Input Mode	5 sounds can be played from the selected group (choose one group from six groups) Play sound only once (if using sequential signal input or pulse signal input)
2	Binary Input Mode	Up to 30 sounds available for each model. Plays sound only once (sequential signal input only)
3	Bit Input Hold Playback Mode	5 sounds can be played from the selected group (choose one group from six groups) The sound is repeated if the input signal is maintained. (sequential signal input only) If the STOP signal is inputted, the sound is turned off, and if the STOP signal is disabled the sound is played repeatedly
4	Binary Input Hold Playback Mode	Up to 30 sounds available for each model The sound is repeated if the input signal is maintained. (sequential signal input only) If the STOP signal is inputted, the sound is turned off, and if the STOP signal is disabled the sound is played repeatedly
5	Bit Input Sound Reduction Mode	5 sounds can be played from the selected group (choose one group from six groups) You can reduce the volume(15dB) by using a separate volume reduction signal line (same as volume reduction signal input)
6	Binary Input Sound Reduction Mode	Up to 30 sounds available for each model You can reduce the volume(15dB) by using a separate volume reduction signal line (same as volume reduction signal input)
7	Bit Input Sequence Memory Playback Mode	5 sounds can be played from the selected group (choose one group from six groups) If the sound is inputted in a order, it will remember the order and play each sound about 3 seconds . The last input channel is fully played (bit input mode only)
8	Test Mode	In test mode, Ch1 of group is automatically played back repeatedly. To end the test mode, switch back to the other modes.

4 VOLUME

- You can adjust the speakers sound output by using the volume dial.

Sound Pattern and Combination for Multifunctional Product

■ Sound patterns for multifunctional products

- Multifunctional product has 30 pre-recorded sound tones.
- 30 sound tones in binary input mode supported. Bit input mode has 5 sound tones within 1 group among 6 groups.

• Bit input mode's sound tone combinations

ON = 1 / OFF = 0

ON	Ch1	Ch2	Ch3	Ch4	Ch5
OFF	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Left channel switch allows to select 5 tons individually within designated group.
(For group selection, please refer to page 94 "How to set-up the multifunctional products")
Channel switch will be substituted for external wiring in case of LC type products.

Sound		Ch	Sound Tone	Sound		Ch	Sound Tone
WS	5 Warning Sounds	Ch1	Fire.A-ANG(560Hz-1.5kHz)	WA	5 Alarms	Ch1	Beep Intermittent
		Ch2	Emergency WA-U(Yelp)(600Hz-1.5kHz)			Ch2	Door Chime
		Ch3	Ambulance PI-PO(Hi-low)(450Hz-900Hz)			Ch3	Phone Ring
		Ch4	Machinery Fault(820Hz)			Ch4	PI.PI.PI Short
		Ch5	High Expansion(1kHz)			Ch5	Tripping Beat
WP	5 Special Warning Sounds (1 st Group)	Ch1	Fire.A-ANG(560Hz-1.5kHz)	WO	5 Special Warning Sounds (2 nd Group)	Ch1	Rel rel rel(730Hz-920Hz)
		Ch2	Abandon Alarm(820Hz)			Ch2	Slow Ambulance PI-PO(820Hz-1.05kHz)
		Ch3	Machinery Fault(820Hz)			Ch3	Wye yong Wye yong(770Hz-1.2kHz)
		Ch4	High Expansion(1kHz)			Ch4	Phone ring 2(740Hz-910Hz)
		Ch5	7 Short Pl. / 1 Long(1kHz)			Ch5	Fire.A-ANG(770Hz-1.11kHz)
WM	5 Melodies	Ch1	Sweet Home	WN	5 Special Warning Sounds (3 rd Group)	Ch1	Oit Oit(500Hz-1.11kHz)
		Ch2	For Elise			Ch2	Pi o Pi o(940Hz-2.19kHz)
		Ch3	Cuckoo's Waltz			Ch3	Slow Di o Di o(680Hz-840Hz)
		Ch4	Piano Sonata			Ch4	Li long Li ling(420Hz-470Hz)
		Ch5	Turkish March			Ch5	911 Siren(500Hz-1kHz)

• Binary input mode's sound tone combinations

ON = 1 / OFF = 0

ON	Ch1	Ch2	Ch3	Ch4	Ch5
OFF	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Left channel switch allows the user to select from 30 available sound tones.
Channel switch will be substituted for external wiring in case of LC type products.

How to Use a MP3 Type Product

MP3-type models have 30 or 31 built-in alarm sounds and the users can play their voice messages or music files(MP3). You can choose two methods for playing up to 31 sounds with the binary input method. While the bit input method can only play 5 sounds from #1 to #5.

■ What is a MP3?

- MP3 is a audio compression technology(Audio layer-3) design by MPEG (Motion Picture Experts Group)
MP3 (MPEG-1 Audio Layer-3) is a standard technology and format for compressing a sound sequence into a very small file while preserving the original level of sound quality when it is played.
- Extension of the MP3 file can be found as “*.mp3”, and any voice message, alarm message, and music can be played and saved as MP3 files.

■ What is a SDcard?

SD memory card is a compact flash memory card for storing various data such as MP3s or document files, Models with MP3 features can save voice messages or alarm messages in the SDcard.

※ SDcard sold separately.

Saving a MP3 file

- MP3 file can be saved and played in accordance with the standards specified by filename.
- Using binary input method according to the specifications given in the file name, a SDcard which is used in special alarm type models(MP3) can save up to 31 sounds, multifunctional type models can save and play up to 30 sounds.
- Using bit input method according to the specifications given in the file name, you can select and play up to five sounds from the MP3 file.

User-defined sound(MP3) type

23 _ For Elise .mp3

40 alphabets
Indicator between file number and name
File number 01-30(31)

[Example]

Binary input and Bit input method

Special alarm type models and multifunctional type models are divided into Binary input method or Bit input method depending on the source selection method.

■ Binary input

ON = 1 / OFF = 0

	1	2	3	4	5
ON	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
OFF	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
No.	1	2	3	4	5
0	0	0	0	0	0
1	0	0	0	0	1
2	0	0	0	1	0
:	:	:	:	:	:
31	1	1	1	1	1

You can only show 2 numbers with 1 switch “0”, “1”. With 5 switches you can have 31 combinations. Selecting one sound from 5 switches is the Binary input method.

■ Bit input

The Bit input method only recognizes one of the 5 switches at a time. This method doesn't support two inputs at once. The number of combinations is small, but it is much more convenient to remember the channel number.

How to Use a MP3 Type Product

■ MP3 supported model basic description

- MP3 supported products can play 30-31 built-in sounds or MP3 files saved in an SDcard.
- Binary input method can play up to 30 - 31 sounds, and Bit input method can play 5 sounds in accordance with the standards specified by filename.
- Can choose and play 5 sounds from #1 to #5.

<Switch select type>

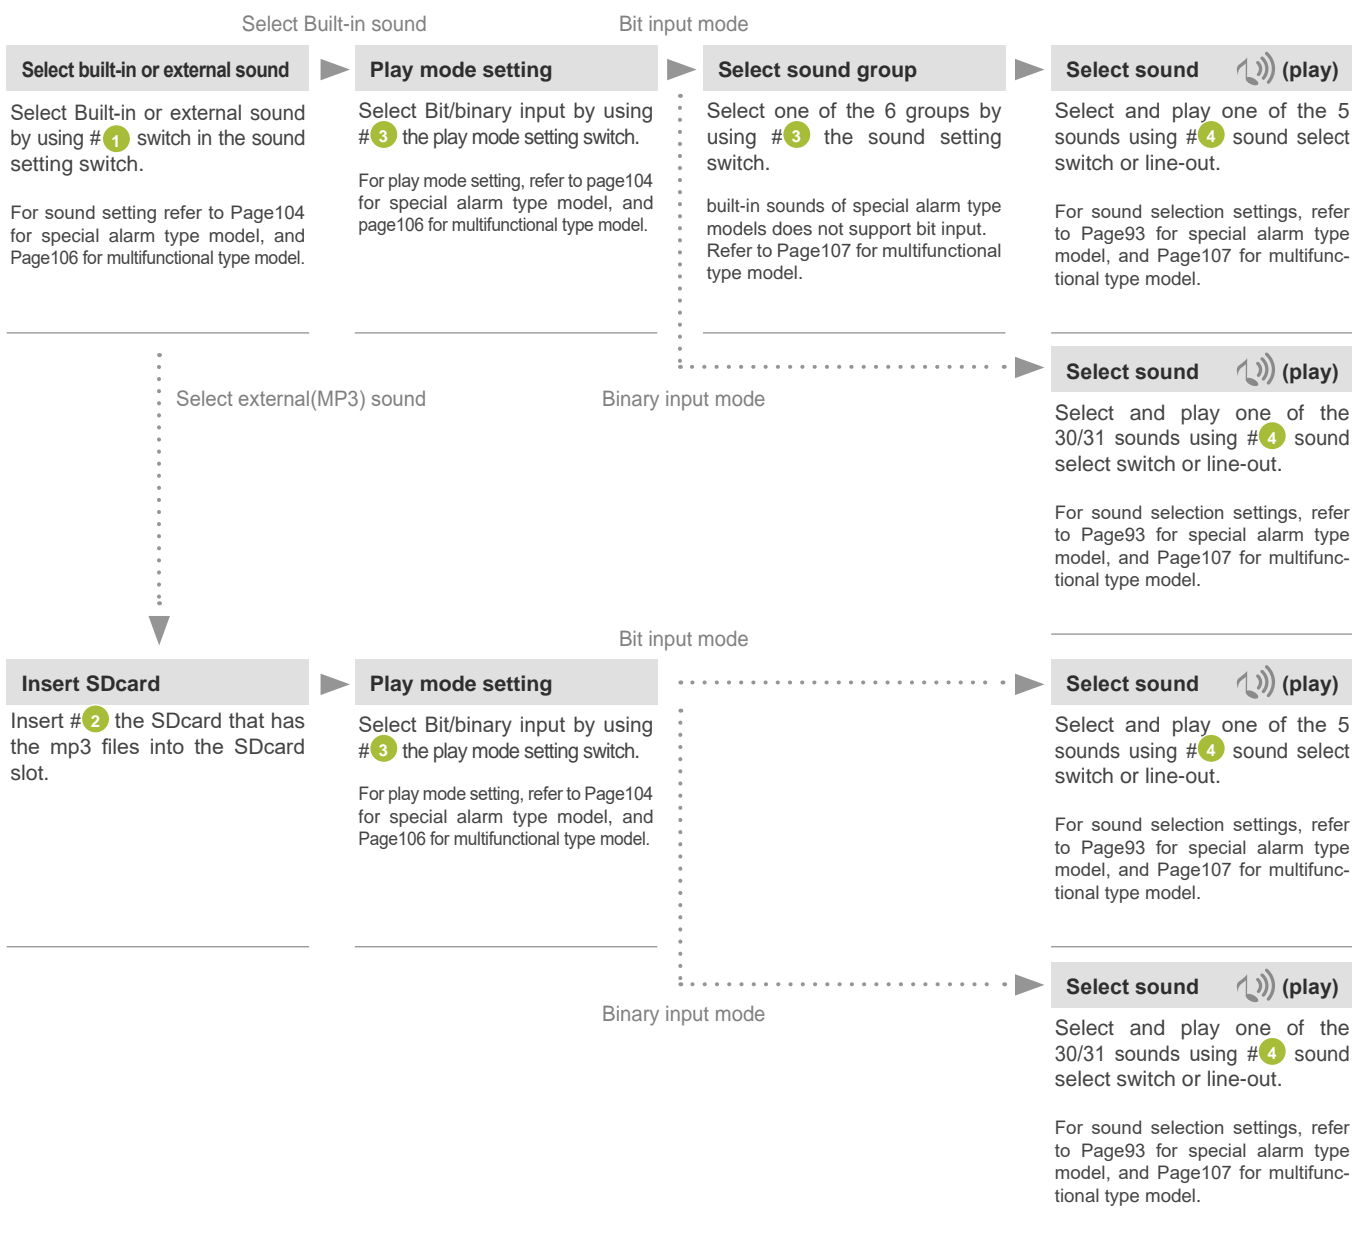

<Line-out type>

- 1 Sound setting switch
- 2 MP3 playable SDcard
- 3 Play mode setting switch
- 4 Sound select switch
- 5 Volume

Qlight Catalogue Introduction

Qlight produces a wide variety of product categories which offers the customer the ability to select the suitable device for their application needs and environments. There are warning/signal lights, electric signal horns, signal tower lights, warning light bars, PC control tower lights, industrial LED lights, aviation obstruction lights, and limit switches.
